LeIntention

LeIntention affects the absorption of nutrients and the metabolic function of the body, improves the digestive function, tones and cleanses the liver, and prevents gallbladder inflammation. This blend stabilizes blood pressure fluctuations, tightens and tones the skin and tissues, and increases circulation. LeIntention has a building and sustaining influence on energy levels. LeIntention is for those times in our life (every day?) when life gets too intense and crazy, or we need peace.
