AROMATIC CONSIDERATIONS:

LeBelieve should be considered whenever there is a need to forgive and release emotions from the past that are holding one back in life. This oil aids in learning to love oneself and achieve a sense of inner peace.

AFFINITY FOR:

nervous system, all of the chakras, cellular memory, most of the meridians, emotions

EMOTIONAL-SPIRITUAL-MENTAL ASPECTS:

LeBelieve was created to release negative emotions and perceptions at the cellular level. This helps us to replace negativity with love, forgiveness, peace, and understanding. Working at the cellular level helps to make these changes permanent. Such changes bring us more confidence in ourselves. LeBelieve can help us see that we have the abilities we need and that we will be led to where we need to be at appropriate times in our lives. LeBelieve is a great oil to aid us in being more optimistic, more motivated, and more tenacious.

This blend can help us balance the need we feel to protect ourselves and be ready for anything that may come along, while providing us with a healthy trust in the future. We can feel confidence in our ability to thrive as we cope with the circumstances and situations of our lives. LeBelieve helps us to forgive ourselves for mistakes made in the past and returns our heart to a state of joyous anticipation for whatever experiences life may have in store for us next.

This blend seems to have the ability to help the dying accept death as the next phase of life, moving peacefully and calmly toward death when the time has come. LeBelieve can also be of benefit to those left behind in finding solace and relief from loneliness.

As LeBelieve helps us move into a more self-forgiving and self-confident state, we should feel more generous, cooperative, and compassionate towards others. We will also find contentment and inner strength. LeBelieve seems to have a beneficial effect on our intuition and our ability to act upon it.

PHYSICAL ASPECTS:

LeBelieve can reach into the core of a cell and release traumas and negative emotions on a cellular level. This blend is also useful in energy corrections that reset cellular memory. When the cell reproduces itself through mitosis, it will begin to reproduce the original undamaged and untraumatized version of the cell instead of the cell in its traumatized state. This is very valuable in healing following accidents, burns, and other physical traumas.
