

QUICK REFERENCE SHEET

LeNoel

Essential Oil Blend

Fir, Peppermint, Vanilla CO2

APPLICATION:

Diffuse LeNoel to fill your home with the crisp freshness of winter air, the scent of evergreen forests, and the sweet warmth of home. Add a drop to a warm bath for relaxation and enjoy the gentle tingle of peppermint. When diluted, apply topically for pain relief, to ease respiratory congestion, or simply to invigorate the senses.

AROMATIC CONSIDERATIONS:

LeNoel offers a mild, sweet, and minty aroma, blending cool peppermint with crisp fir and warm, creamy vanilla. This joyful combination perfectly captures the spirit and comfort of the winter season.

AFFINITY FOR:

Immune, Nerves, Respiratory System, Muscles

! CAUTIONS:

This blend contains Peppermint, which is contraindicated during pregnancy. Topical application is not recommended for pregnant individuals.

EMOTIONAL-SPIRITUAL-MENTAL ASPECTS:

LeNoel is simultaneously stimulating and grounding—ideal for maintaining steady energy and supporting mental clarity during busy or stressful times.

PHYSICAL ASPECTS:

Although LeNoel was created primarily for diffusion, all essential oils have physical benefits. The Peppermint and Fir in this blend support respiratory health, pain relief, and immune function, while Vanilla helps promote hormonal balance and provides antioxidant support.

GENERAL INFORMATION:

LeNoel features Vanilla CO2, a rare and highly prized essential oil. Because of its limited availability, this blend is a limited edition—unless more Vanilla CO2 can be sourced. Its soft, rich aroma adds exceptional depth and balance, making it especially delightful when diffused.
