

## QUICK REFERENCE SHEET

# LePurify

Essential Oil Blend

Citronella Ceylon, Grapefruit White, Lavender Officinalis, Lemongrass, Manuka, Tea Tree

### APPLICATION:

Diffuse to purify the air, kill germs, and remove odors.

### AROMATIC CONSIDERATIONS:

LePurify purifies the air, neutralizes mildew, removes the smell of cigarette smoke and many other noxious odors when diffused in a room.

### AFFINITY FOR:

digestive system, skin, emotional stability

### EMOTIONAL-SPIRITUAL-MENTAL ASPECTS:

Some citrus oils and Lavender, all of which are in this essential oil blend, are useful for anorexia and eating disorders because they moderate feelings of insecurity, self-doubt, and self-loathing. For this purpose, LePurify should be diffused every night and as much as possible during the day. Other essential oils, chosen according to the emotional picture of the person, should be worn as perfume or cologne every day.

### PHYSICAL ASPECTS:

LePurify kills odors, bacteria, molds, and fungus. This is an excellent oil for cleaning any portion of your home. This blend can be sprayed onto window sills and into corners during the winter months to prevent the growth of molds. It is effective when applied to spider bites and insect stings and can be used for repelling bugs, insects, and mice. LePurify sometimes brings relief from toothaches and dental abscesses; at the very least, it may relieve the problem somewhat until a dentist can be reached.
