CABREUVA

Myrocarpus fastigiatus

Plant Family: Fabaceae

Extraction Method: Steam Distilled

Part Utilized: Wood

Region of Origin:

Brazil

AFFINITY FOR:

muscles, tissue repair

THERAPEUTIC PROPERTIES:

antiseptic, cicatrizant (heals wounds), aphrodisiac, corticosteriod

AROMATIC CONSIDERATIONS:

Cabreuva has a delicate woody/floral scent.

APPLICATION:

Cabreuva should be diluted and applied on the feet or directly on the body.

CAUTIONS:

Cabreuva oil is very mild. There are no known contraindications.

INGREDIENT IN:

LeFaith, LeIQ, LeRevitalize, LeSolitude

EMOTIONAL-SPIRITUAL-MENTAL ASPECTS:

Cabreuva quiets the mind and helps us move from useless worry to productive planning. It can help us find the vision to see solutions to our problems and the inner strength to carry out our plans.

PHYSICAL ASPECTS:

Cabreuva has been used since ancient times to heal wounds and ulcerative sores, and to treat cuts and scars. It is considered strongly antiseptic. Cabreuva is sometimes used for arthritis because of an action similar to corticosteriods.

GENERAL INFORMATION:

Cabreuva essential oil was, in the past, included in European pharmacopoeias as a medicine.
