

QUICK REFERENCE SHEET

EUCALYPTUS GLOBULUS

Eucalyptus globulus

Plant Family:
Myrtaceae

Extraction Method:
Steam Distilled

Part Utilized:
Leaves

Region of
Origin:
U.S.A.

AFFINITY FOR:

endocrine system, muscles, yin energy,
respiratory system, bones, brow chakra

THERAPEUTIC PROPERTIES:

anti-inflammatory, antiseptic, balsamic,
expectorant, antibiotic, antifungal, febrifuge,
anti-infective, antiparasitic, antineuralgia,
pectoral

AROMATIC CONSIDERATIONS:

Eucalyptus is energizing and promotes feelings
of steadfastness and confidence in oneself.
The aroma of Eucalyptus can help us release
resentment calmly, without the usual explosions
of temper and hostility. Eucalyptus, diffused,
purifies the air.

APPLICATION:

Eucalyptus should be applied to the feet, and
on areas where anti-inflammatory properties
are needed. Eucalyptus, or a blend containing
it, can be diluted and applied to the chest for
respiratory congestion and infections. If used
in small amounts, Eucalyptus makes a good
addition to massage oils. Eucalyptus applied
under and on each side of the nose brings quick
relief for clogged sinus cavities.

! CAUTIONS:

Eucalyptus can be caustic to the skin if used
undiluted. Not to be taken internally.

INGREDIENT IN:

^{Le}Breezey, ^{Le}Deeper, ^{Le}Deliverance, ^{Le}Deliverance Plus, ^{Le}Fortitude, ^{Le}Paine, ^{Le}RefreshMint, ^{Le}TendaCare

EMOTIONAL-SPIRITUAL-MENTAL ASPECTS:

Eucalyptus helps us find our survivor spirit. Eucalyptus taps into the inner strength in each of us. It can help us develop unfaltering faith in ourselves and in divine assistance. Eucalyptus strips away doubt about our abilities, removes negativity and hesitation, and pushes us forward. Eucalyptus calms our spirits and opens our minds to see the way ahead clearly.

PHYSICAL ASPECTS:

Eucalyptus is a very versatile and useful essential oil. It can be used to cool the body in summer and protect from bacteria and viruses in the winter. Eucalyptus is useful for bronchitis, colds, flu, asthma, and any problem in the respiratory system. Eucalyptus is one of the best oils for bringing down a fever. Eucalyptus is a strong analgesic. It can be applied alone or as part of a blend for muscle aches and headaches. Eucalyptus alleviates mental exhaustion and stabilizes blood sugar levels in both hypoglycemia and diabetes. Well diluted, Eucalyptus is good for skin rashes and makes a very good energizing massage oil. Eucalyptus becomes more antiseptic with age, if it has been stored and handled properly.

GENERAL INFORMATION:

I do not recommend taking essential oils internally, but I want to issue a particular warning about all varieties of Eucalyptus. They should not be taken internally. The literature around the world and in most schools of thought about essential oils agree that Eucalyptus is toxic when taken internally. Nevertheless, the FDA (what do they know about this kind of thing?) have approved it for use as a dietary supplement. You can do most anything with the topical application of an essential oil that you would hope to do with internal consumption. Please be sensible and cautious about the internal use of any essential oil, especially with children, and do not take or administer Eucalyptus oils internally at all.
