

## QUICK REFERENCE SHEET

# WINTERGREEN

*Gaultheria procumbens*

Plant Family:  
Ericaceae

Extraction Method:  
Steam Distilled

Part Utilized:  
Leaves

**Region of  
Origin:**  
China

### AFFINITY FOR:

nerves, kidneys, bones, joints, muscles,  
respiratory system

### THERAPEUTIC PROPERTIES:

analgesic, anti-inflammatory, anti-rheumatic,  
antiseptic, antispasmodic, cholagogue,  
disinfectant, diuretic, warming

### AROMATIC CONSIDERATIONS:

Wintergreen has a wonderful aroma. It is  
stimulating, but deeper and more grounding  
than the essential oils of the mint family.  
Wintergreen is cleansing and opening to the  
physical senses.

### APPLICATION:

Wintergreen can be applied to any area of  
the body where it is needed. Be sure to dilute  
well. Wintergreen essential oil is very pleasant  
diffused.

### ! CAUTIONS:

Wintergreen essential oil has a high methyl  
salicylate content. Nevertheless, it is safe  
to use. Please see information on Birch for  
safety information about this constituent.  
Birch and Wintergreen often receive very bad  
press because of misunderstandings about the  
effects of this "supposed" toxic ingredient.  
Wintergreen should be used cautiously if  
pregnant and always diluted well.

### INGREDIENT IN:

LeDeeper, LeFortitude, LeRefreshMint, LeSweet Relief, LeTendaCare, LeWarmDown

### EMOTIONAL-SPIRITUAL-MENTAL ASPECTS:

Wintergreen essential oil is a very aggressive essence which stimulates very powerful responses in return. Wintergreen promotes change on a profound level as the mind/body complex responds. Wintergreen shakes up and wakes up the mind and every system of the body.

### PHYSICAL ASPECTS:

Wintergreen produces an analgesic, numbing effect on the nerves present in whatever tissue it is applied to. Wintergreen clears obstructions to the flow of blood in the tissues and in the veins and arteries. This increases circulation in general and brings warmth to the area. This warmth is as strong and as healing as anything you will experience with commercial athletic rub products. This warmth also relaxes the muscles in the area to which it was applied. As the circulatory system works more efficiently, many health problems are alleviated.

The stimulant properties of Wintergreen apply to all systems and organs of the body. Wintergreen increases the activity of the kidneys, preventing toxins, uric acid, fats, and liquids from building up in body tissues. Wintergreen essential oil aids digestion by stimulating proper secretion of gastric juices and bile. It stimulates the activity of the lungs, intestines, and other organs, preventing the accumulation of congestion and waste materials.
