Blue Tansy

Blue tansy regulates the flow of vital energy throughout the body. As the energy in the body travels more freely, a feeling of peaceful solitude is created in our minds and heart. We are better able to handle stress, and feel less threatened and overwhelmed. We feel more gratitude for our health and our families. Adds pain relieving and anti-inflammatory properties to blends in which it is included. Blue tansy relieves nervous tension and is used, in very diluted form, for itchy skin conditions.
