### Garlic

Garlic oil should be used with extreme caution and always diluted well! Garlic oil is not recommended for diffusion. You will have more aroma than you need on your fingers any time that you touch a bottle of garlic essential oil. Garlic, in the world of herbal medicine, is considered to be nature's most perfect antibiotic. It is used for particularly nasty viruses or bacteria because its antimicrobial action is so strong. 2 drops of garlic oil in 1 ounce of carrier oil (shake well!) is an excellent treatment for earaches.
