Vanilla

Vanilla is one of the most calming and uplifting of scents. Vanilla has such a wonderful aroma that even if it had no therapeutic properties I would still us it. The aroma of vanilla helps us feel confident that the future will be full of promise and hope. Vanilla can give us hope, perspective, and confidence in our ability to listen to inspiration. Vanilla helps build a stronger immune system, better memory, improved vision and hearing, more stable emotions, improved mental acuity, and overall repair of body systems, organs, and tissues.
