LeChristmas in the Air

Every year I go up the canyon with my family to cut down our Christmas trees. This blend reminds me of the smell of fresh pine trees and snow, and spending quality time with family. I love the smell of a real Christmas tree in my home. With this blend your home can smell like that whenever you want, and if you use a fake Christmas tree you can still have the real Christmas tree smell! LeChristmas in the Air is a very grounding oil, providing emotional stability and clarity of mind. It enhances feelings of security and protection, making you feel warm and safe. This oil also promotes gratitude.
